Forecast For Southwest England
Issued by Met Office Exeter
at 1600 on Thursday 06 May 2021

++ Valid for broadcast between 1800 and 0600

Headline:
A cold night with a widespread frost developing.

This Evening and Tonight:
It will be a dry evening with plenty of clear skies overnight. Another cold night with light winds allowing for a widespread frost to develop. Minimum temperature -3 deg C (27 deg F).

Friday:
After a frosty start, it will be a largely dry day for many with sunny spells. The odd light shower may develop, mainly in the east during the afternoon. Maximum temperature 13 deg C (55 deg F).

Outlook for Saturday to Monday:
Wet and windy on Saturday with heavy rain, though milder than of late. Outbreaks of rain on Sunday with limited sunny spells. Heavy showers with sunny spells between on Monday.
